CONGRATULATIONS!

You've taken the first jump to a happier food bowl and a bigger bark!

Our lab technicians have analyzed your furry friend's sample using our state-of-the-art biotechnology cellular testing. Your fur-tastic results are found in the pages to follow.

Your furry friend's results are divided into sections. Within each section, you will find an overview page and our color-coded key system. This will provide you with additional information to help you better understand their individualized results.

Each section varies, and the overview helps you interpret your results clearly and concisely.

We look forward to facilitating a life best suited to Fenix and their biological needs by helping them live a more nutritious, energetic, healthy, and optimal life.

To your very best health,
Advanced Food Intolerance Labs
